

**RE: Lafourche Parish Water District No. 1
Public Service Announcement # 072824
Water Conservation Update
Released as of Sunday, July 28, 2024, (2:15 pm)**

Social Media Disclaimer:

If you are viewing this Public Service Announcement on Social Media, you are urged to visit www.lpwvla.org to confirm it is accurate and up to date.

For Immediate Release:

The **WATER CONSERVATION NOTICE** is still in effect for all customers in Lafourche Parish serviced by the District.

The cleanup process is ongoing in Bayou Lafourche. The Water District is coordinating with Lafourche Parish Government authorities to obtain resources needed to prevent the oil from entering the treatment process. As of this time, several booms have been deployed along with additional absorbent booms.

The District is also under the advisement of the Louisiana Department of Health and Hospitals. At the time of this Public Service Announcement, the oil has not entered the treatment plant and water continues to be treated. If this changes, customers will be notified immediately.

We are continuing to ask customers serviced by the District to conserve water and refrain from non-essential water use until further notice. Your cooperation is vital to ensure adequate water quality and quantity are preserved for all communities within our water system. Thank you for your assistance.

Updates:

Customers should stay tuned to News Media outlets and monitor the Lafourche Parish Water District's Website at www.lpwvla.org for further updates and additional information.

News Media Note:

Please repeat this announcement several times a day until further notice and advise the public that this information, along with future updates will be posted on the Lafourche Parish Government Website at www.lafourchegov.org.
